EDUARDO DANIEL VELOZ VELÁSQUEZ

Systems Engineer | Full Stack Developer & UI/UX Designer

Location: Carabobo, Venezuela **Phone:** (+58) 414 149 0057 **Email:** contacto@velozed.dev **Portfolio:** https://velozed.dev

PROFESSIONAL SUMMARY

Systems Engineer and Full Stack Developer specialized in building web applications, modern interfaces, and process automation. Proficient in Astro, Vue.js, and backend architectures using Cloudflare D1 and Workers. Strong combination of software engineering logic with advanced UI/UX design skills, focused on high performance, SEO, and optimization.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, SQL, HTML5, CSS3.

Frameworks: Astro, Vue.js.

Backend & DB: MySQL, SQL Server, REST APIs, Cloudflare Workers / D1.

Version Control: Git.

UI/UX Design: Affinity Suite, Figma.

Operating Systems: Windows, Linux.

PROFESSIONAL EXPERIENCE

Full Stack Developer & UI/UX Designer
2021 – Present

Freelance

- Design and development of responsive web applications, optimized landing pages, and custom systems using Astro, Vue.js, Tailwind CSS, and PHP/MySQL.
- Implementation of JAMstack architectures on Cloudflare Pages, improving load times (Lighthouse > 90) and technical SEO.
- Configuration and administration of hosting environments, servers, and relational database optimization.
- Creation of visual identity, UI/UX layouts, and advertising graphic materials using Affinity Suite.

Software Developer & Designer & Technical Support
2022 – 2023

Run

- Architecture and development of custom software for email marketing campaign automation integrated with client databases.
- Design and layout of responsive HTML templates for corporate communications and promotional materials.
- Assembly, diagnosis, and preventive/corrective maintenance of company computing and network infrastructure.
- Optimization of renders and workflows for packaging materials and product design.
